Electric hotplate

Features:

* Real-time temperature value display, countdown display.
* PID microprocessor controls temperature.
* Built-in temperature deviation calibration function.
* LCD liquid crystal display
* The timer can precisely control the heating time, the timing range: 0 to 9999 minutes (hours); the timing error: < 1%
* Using a new heating method, the heating body is made of isostatically pressed high-purity graphite with excellent thermal conductivity, which has excellent corrosion resistance
* The temperature rises quickly and evenly, and the operation is simple and safe to use.

Technical Parameters:

Model	BJPX-HP3040
Working Size	400*300mm
Temp. Control Range	RT~320℃
Temp. Control Precision	±1℃
Stage Material	304 Stainless Steel
Power	2000W
Power Supply	220V/110V, 50/60Hz
External Size	450*215*305mm
Net Weight	15kg
Packing Size	360*480*245mm
Gross Weight	18kg
